Reply to Office Action dated 1/17/2006

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 17 January 2006. In the Official Action, the Examiner has found three inventions, namely, Group I directed to Claims 1-5 drawn to a self-adhesive frame applied in a package of field emission display; Group II directed to Claim 6 drawn to a manufacturing method of self-adhesive frame; and Group II directed to Claim 7 drawn to a package method for field emission display using the self-adhesive frame. The Examiner has required that Applicant choose one Group for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 6-7 and elects Claims 1-5 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
